**Virtual Introduction to Astrology for Teens**
Thursday, April 9th, 2:00 pm
Before there was television, or even electricity, we had the stars for entertainment. Ancient peoples noticed that the movement of planets in the night sky correlated to events on earth. For over 6000 years, humans have used the heavens to make meaning of events down below--sometimes even being able to accurately predict the future. Want to learn more about the planetary archetypes and the houses of the zodiac? Join astrologer and author, Laura Campagna, The Wednesday Witch, for a fun interactive workshop that will illuminate the cosmic energies flowing through your life.

**Registration is required** to receive a virtual meeting link. Please bring your time, date and location of birth otherwise you will not be able to participate. Contact Miss. Meghan with questions.
